

Alexco Resource Corp. (the Company) is a Canadian corporation with corporate headquarters in Vancouver, British Columbia, Canada. Alexco operates two distinctive yet complimentary businesses; mine exploration, development and operations and environmental consulting and remediation services.

Alexco Resource Corp.'s business is to unlock value and manage risk at mature, closed or abandoned minesites through deployment of the company's core competencies and skills which include management of environmental services, execution of mine reclamation and closure operations and where appropriate, rejuvenation of exploration and development activity.

The Company is currently recruiting for a:

Safety Manager

Reporting to the General Manager, the successful candidate will be responsible for:

- Developing safety training strategies and courses for the construction and operational phases of the project;
- Collecting, analyzing and reporting data relating to the implementation of preventative strategies, critical incidents and injury frequency rates;
- Developing and promoting strategies for enforcing safety standards and regulations across the district;
- Safeguarding the construction and operating sites through safety measures that protect company assets and people;
- Managing emergency preparedness programs that ensure the site is able to react systematically and effectively in a crisis and minimize damage or risk;
- Training, participating in, and being an active member of Mine, Surface Rescue and firefighting for Mine preparedness;
- Writing, communicating, implementing and following through with safety procedures and policies; and
- Liaising with Yukon Workers' Compensation Health & Safety Board and other Government agencies.

Education & Experience Requirements:

The candidate will have a University degree in a safety related discipline and or certified safety professional.

- Professional designation or certification in a safety related area;
- Advanced First Aid certificate;
- Mine Rescue certificate is required;
- Three (3) to five (5) years of safety and training management experience in an underground mining environment;
- Minimum of one (1) to two (2) years experience in a supervisory role; and
- Remote camp experience and asset.

Alexco maintains camp facilities in Elsa, Yukon, where employees and contractors are housed. This position is based in Elsa and the rotation schedule is 14 days on and 14 days off working 10 hour days with a Wednesday start. Alexco provides full benefits packages comparable to current industry standards.

Salary will be commensurate with experience.

Inquiries about this position and resume submittal can be made to hr@alexcoresource.com
